

The Yolo Democrat.

COUNTY AND TOWN OFFICIAL PAPER.
WOODLAND, CAL.
Friday, Sept. 5th, 1873.

COLUSA COUNTY.—We learn that nearly all the Democratic ticket is elected in Colusa county.

SOLANO COUNTY.—Solano is said to have elected the Taxpayers' ticket over the Republican by a large majority.

NAPA ALL RIGHT.—A dispatch from Senator Pendegast says that the entire Anti-monopoly (Democratic) ticket is elected in Napa county.

SACRAMENTO COUNTY.—The Union of yesterday claims the election of the Taxpayers' ticket over the Republican in that city by about 1,000 majority.

YOLO SUPERVISORS.—The Board of Supervisors in this county still remains in the hands of the Democrats, Ed. Roberts, having been re-elected in the Third District.

SISKIYOU.—The telegraph reports Senator Irwin, Democrat, largely ahead in the count, so far as made, and that he with the rest of the Democratic Anti-Monopoly ticket is elected.

SAN FRANCISCO.—The papers yesterday morning claimed the election of the Citizens' Anti-Monopoly ticket, and if this be true it will insure the election of Casserly to the United States Senate. Good enough!

CONCEDES U. S. SENATOR.—Last evening's Bee says "The Republicans have lost the Assembly and have not won the Senate," and that "it is doubtful whether Booth or a Democrat has the State for U. S. Senator."

BUTTE COUNTY.—A dispatch to M. G. Lee says: "The following Democrats are elected: Moody, Clary, Ray, Fields and Wilcoxson, the latter for County Clerk. The rest of the ticket is Republican."
(Signed) C. E. WILCOXSON.

A SPLENDID PICTURE.—We call attention to the advertisement of the Woods Household Magazine, offering the beautiful chromo "Yo Semite" to their subscribers—worth more than the price of the magazine for a whole year.

WOULD NOT DESERT HIM.—Though Mr. Roberts Supervisor of the Third District has been quite ill for some time, his district re-nominated him for that position and have elected him, too, by a good round majority. May he soon recover, and be able to attend to his duties as our earnest hope.

GOLD MINE IN SAN FRANCISCO.—The telegraph reports considerable excitement in San Francisco on the 1st inst., in consequence of a gold-bearing quartz ledge on Bernal Heights, near the city. Several claims are located. The discovery was made by a man digging a well. The assay of the rock shows a yield of \$2,525 per ton. Large numbers of people are on the ground.

CHANGE OF PROGRAMME.—We are heartily glad the election is over, in which feeling the candidates doubtless concur. Our readers generally probably share the same feeling, for they have found little else of local matter but politics during the last month. Hereafter, however, we trust we shall be able to furnish them with a different class of reading matter, and after this issue shall do our best to make the Democrat a welcome weekly visitor.

NEW PAPER.—The Colusa County Independent is the name of a new weekly newspaper published at Colusa by H. W. Hulbert, editor and proprietor. It is a 24 by 35 sheet, well printed and ably edited. We judge that its name is intended to indicate the politics of the paper. There is probably a field for two papers in Colusa county. The Independent will find in the Sun an able and honorable competitor. We trust it will prove a paying investment financially.

SLOW COUNTING.—Last evening's Examiner says it is a stupendous job to count the ballots in that city, and that the returns will not be in till late Friday evening. The Examiner thinks the vote in the city on the Legislative tickets will be very close, but the Sacramento Bee claims to have information to the effect that the "Daily Varden" Legislative ticket (half Booth half Casserly) has more votes than the Democratic and Republican tickets combined.

SPIRIOUS GREENBACKS.—Thirteen spurious \$500 greenbacks were received at the U. S. Sub-Treasury on Tuesday last. Probably there are many others in circulation. The telegraph also reported on the same day that an immense amount of New York railroad bonds had been forged. One firm alone had advanced \$40,000 to the swindlers, in consequence of which they were compelled to suspend. What does all this prove—that there is nothing like specie for safety; especially as regards the greenbacks.

WOOD'S HOUSEHOLD MAGAZINE.—We have received the September number of this lively, entertaining and refined magazine. It is a regular little go-ahead, too, as comparison between its numbers will prove. We learn that the firm of S. S. Wood & Co. dissolved in March last, S. E. Shutes retaining possession of the magazine, and H. V. Osborne, editor, so, though the publication really changed hands, it has not suffered, but under the redoubled efforts of its energetic proprietor, has gained new force and new attractiveness. Price only one dollar a year. Address, Wood's Household Magazine, Newburgh, N. Y.

The Battle Over.

The campaign this year has been a very short and an extremely bitter one in this county. Party lines have been but little control over voters, as the returns prove so far as received. Some of the best men on both tickets have run behind their party strength for other than party reasons—what those reasons were is known only to the voters themselves in most cases. The scratching of tickets was never equalled in this county, and so it appears to have been throughout the entire State. The general fight was upon the Monopoly issue, and so far as we can judge by the news received the Anti-monopolists have won in most instances. The vote on McCune in this district for the State Senate is probably a fair criterion of the feeling of the people on this question. He has carried this county by a large majority, estimated at from 200 to 300, and Solano county (including the Mare Island Navy Yard) by a small majority. This, if it proves true, will be conceded as a great victory over the Republican monopoly ticket of Solano and a decided triumph of the people of the district. And if the vote in Solano is close, Yolo's 200 or 300 majority will surely elect McCune. In this county Mr. Freeman, Anti-monopoly Republican is elected over Mr. Kelley, the Democratic nominee for the Assembly and the real friend of the people, by probably 100 majority. The reasons for this, however, are outside of party considerations, as every resident of the county knows. Business relations, it is generally believed, gave Mr. Freeman many Democratic votes. The Republicans have probably also elected their Sheriff, Tax Collector, Clerk, and School Superintendent—all the rest on the county ticket—Democratic. The Republicans have elected two Supervisors and the Democrats one, making the new Board three Democrats to two Republicans. The Republican Supervisor in Woodland was elected by trading, as the candidates were equally good men, and the result of the vote shows a Democratic majority if none but straight tickets had been voted.

THE LEGISLATURE CONFERRED TO BE ANTI-REPUBLICAN.—The San Francisco Chronicle of yesterday reviews the result in the State as follows: "Our latest telegraph advice from the interior indicate that Booth has carried the following counties: San Joaquin and Sacramento. The Republicans have carried Sierra, Butte, Shasta and Alameda, while the Democrats are reasonable sure of Sonoma, Stanislaus, Merced, Colusa, Nevada, Tehama, El Dorado and Santa Barbara. The Independent Democrats have Placer, Santa Cruz, Santa Clara and Solano. Tulare is in doubt, with Contra Costa, Marin, Amador and Siskiyou. The indications are that the Legislature will be strongly anti-Republican." The Call says: "The success of the Anti-Monopoly Legislative ticket in this city, at the time of writing this editorial, is believed to be complete. It is thought that every candidate for the Senate and Assembly has been elected. This is essentially a victory of the People, for it has been won by all classes, and nobly have they met the issue. Neither has this victory been gained by any political party; it is due to all parties, to all classes of our people, and to persons of all creeds. That San Francisco has gained immensely by the vote given yesterday, no person can doubt, for it will create a feeling of security—a feeling of self-reliance—and the conviction that property interests here are safe. It will raise San Francisco in the estimation of the inhabitants of the interior counties, and in the estimation of the whole country. San Francisco stands to-day an independent people, and from this time forward we believe her position is assured."

A THIRD TERM.—Here is another phase of the talk which begins to float through half the papers of the country in the form of a quiet assumption, that the third term is inevitably up for discussion. It comes from the Boston Saturday Gazette:

"There are apprehensions in some quarters that President Grant will seek a third term in the Presidency. We deem this to be not at all improbable, especially since the salary of the office has been raised to its present double proportion. That he will be elected, too, many shrewd observers are inclined to believe as not unlikely. A commercial revolution would probably be fatal to his prospects; but a commercial revolution does not seem any more to be apprehended in the next three years than it was in the three that have past. The moneyed interests of the nation turned the scale in favor of President Grant last year. If it was not altogether satisfied with his financial policy, it dreaded the operation of any change in this respect. It is argued that this interest is quite likely to have the same feeling in 1876, at which time the chances are that the Republicans will have no other Presidential candidate upon whom they can unite with the assurance that he will succeed with all the people. The office-holders and office expectants will therefore rally to the President's standard again, and the money power, dreading what may be the effect of a change of policy, will support him as against an opposition candidate. This would give him, what no other President has ever had, a twelve years' term in office."

PART TIME.—On the 30th, at Sacramento, the horse "Occident" made a half mile in 1.06. After a walk around he made a second half mile in 1.06.

TO BE HANGED.—The Modoc convicted by the late Court, Martial—six in all, including Captain Jack—are to be hanged on the third of October.

NOT PROLIFIC.—Sacramento, out of a population of 25,830 has only 5,622 children. Sacramento isn't a good place for raising children.

EARTHQUAKE.—A slight shock of earthquake was felt in Sacramento on the 29th.

Election Returns.

We give below the returns from the different precincts of this county so far as we could obtain them up to last evening. The majorities only are given, and this is not official, but we publish it as an approximation of the result. The official vote will be given as soon as it shall have been canvassed by the Board of Supervisors:

We hear that this precinct has given an average Republican majority of 31.	
RECAPITULATION.	
The result of the above figures, together with what is reported from precincts without giving figures, shows that the Democrats have elected eight and the Republicans five of the candidates on the county ticket. Best, Democrat, for Harbor Commissioner has a majority in the county. Of the three Supervisors to be elected the Republicans elected two and the Democrats one—making a majority of one Democrat for the new Board.
